INDEPENDENT AUDITOR'S REPORT

To The Members of Dow Chemical International Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Dow Chemical International Private Limited ("the Parent") and its subsidiary, (the Parent and its subsidiary together referred to as "the Group") which comprise the Consolidated Balance Sheet as at 31st March 2020, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements of the subsidiary referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS') and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2020, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of its report referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiary audited by the other auditor, to the extent it relates to this entity and, in doing so, place reliance on the work of the other auditor and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary, is traced from their financial statements audited by the other auditor.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the entities or business activities included in the consolidated financial statements, which have been audited by the other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

(a) We did not audit the financial statements of a subsidiary for which application has been made applied to Registrar of Companies for voluntary liquidation with effect from July 2, 2019 u/s 248 (2) of the Companies Act, 2013 (refer note [40]). The financial statements of the subsidiary are audited by the other auditor for the period from April 1, 2019 to June 26, 2019. The total assets of Rs. NIL as at March 31, 2020, and total revenues of Rs. NIL and net cash outflows of Rs. 0.46 million for the year then ended, with respect to the subsidiary is considered in the consolidated financial statements. The report of the other auditor has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of the other auditor

and unaudited financial information certified by the Management with respect to the transactions after June 26, 2019. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor and the financial information certified by the Management.

(b) Due to COVID-19 related lock-down, we were not able to participate in the physical verification of inventory that was carried out by the management subsequent to the year end. Consequently, we have performed alternate procedures to audit the existence of inventory as per guidance provided in SA 501 "Audit Evidence-Specific Considerations for Selected Items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on the accompanying consolidated financial statements.

Our opinion on the consolidated financial statements is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditor on the separate financial statements of the subsidiary referred to in the Other Matters section above we report, to the extent applicable that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor.

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors of the Parent as on 31st March, 2020 taken on record by the Board of Directors of the Company, none of the directors of the Parent is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' report of the Parent. Reporting on the adequacy of Internal Financial Control Over Financial Reporting of the subsidiary and the operating effectiveness of such controls, under section 143(3)(i) of the Act is not applicable in view of the exemption available in terms of the notification no. G.S.R. 583(E) dated 13 June 2017 issued by the Ministry of Corporate Affairs, Government of India, read with general circular No. 08/2017 dated 25 July 2017. Our report expresses a qualified opinion on the operating effectiveness of the Parent's internal financial controls over financial reporting for the reasons stated therein.

g) In our opinion and to the best of our information and according to the explanations given to us, the Parent being a private company, section 197 of the Act related to the managerial remuneration is not applicable.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.

ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.

iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Parent and its subsidiary company incorporated in India.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Dow Chemical International Private Limited (hereinafter referred to as 'the Parent'). Reporting by auditor on internal financial controls over financial reporting is not applicable to the subsidiary company as per the auditor's report of the said subsidiary company.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the internal financial controls system over financial reporting of the Parent.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Qualified opinion

With respect to the Parent, according to the information and explanations given to us and based on our audit, material weaknesses have been identified in the operating effectiveness of the internal financial controls over financial reporting as at March 31, 2020 relating to identification of leases and accuracy of minimum lease payments considered for measurement of Right-of-use, as per Ind AS 116, Leases, which could potentially result in non-recognition of Right-of-use asset / recognition of Right-of-use asset at incorrect value.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Qualified Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Parent has, in all material respects, maintained adequate internal financial controls over financial reporting as of March 31, 2020, based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, and except for the effects of the material weaknesses described in Basis for Qualified Opinion paragraph above on the achievement of the objectives of the control criteria, the Parent's internal financial controls over financial reporting were operating effectively as of March 31, 2020.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements of the Group for the year ended March 31, 2020, and these material weaknesses do not affect our opinion on the said consolidated financial statements of the Group.

	01/04/2019 to 31/03/2020
Disclosure of significant accounting policies [TextBlock]	Textual information (2) [See below]

Textual information (2)

Disclosure of significant accounting policies [Text Block]

1. General information

Company Background:

Dow Chemical International Private Limited ("the Company" or "the Holding Company") was incorporated on February 13, 1998, as a private limited company. The Company and its subsidiary, CHPM Trading (India) Private Limited, (together referred to as "the Group") are engaged in the business of manufacturing, trading and indenting in chemicals, silicon based chemicals and automotive engineering solutions. The Group is also engaged in back-end support, engineering and research and development activities and has three plants in Lote and Taloja, Maharashtra and Sriperumbadur, Tamil Nadu.

2. Significant accounting policies

2.1 Basis of preparation and presentation

(i) Compliance with Indian Accounting Standards (Ind AS):

The consolidated financial statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act as amended.

(ii) Historical cost convention:

The consolidated financial statements have been prepared on a historical cost basis except for the following:

a) Certain financial assets and liabilities (including derivative instruments): Measured at fair value.

b) Defined benefit plans:- Plan assets measured at fair value

(iii) Application of New Accounting Pronouncements

The Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following major amendment and new accounting standards which became applicable with effect from 1st April 2019:

a) Ind AS 116 – Leases: Ind AS 116 Leases replaced Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Group has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, using the modified retrospective approach.

The Group has made use of the following practical expedients available in its transition to Ind AS 116:

- The Group excluded the initial direct costs from measurement of the RoU asset;
- The Group does not recognize RoU assets and lease liabilities for leases with less than twelve months of lease term and low-value assets on the date of initial application.

On adoption of Ind AS 116,

(i) the Group had recognized right-of-use assets Rs. 1,905.05 million and corresponding lease liabilities of the same amount and thus there was no impact on opening reserves.

(ii) prepaid rent on leasehold land and other assets, which were earlier classified under "Other Assets" have been reclassified to right-of-use assets by Rs. 964.81 million.

The adoption of the new standard has resulted in a reduction of Rs. 28.10 million in retained earnings, net of deferred tax asset of Rs. 9.45 million.

During the year ended March 31, 2020, the Group recognized in the statement of profit and loss

(i) Depreciation expense from right-of-use assets of Rs. 708.43 million {Refer to Note 4 (b)}

(ii) Interest expenses on lease liabilities of Rs. 53.35 million

(iii) Refer to Note 4 (b) for additions to right-of-use assets during the year ended March 31, 2020 and carrying amount of right-of-use assets as at March 31, 2020 by class of underlying asset.

Lease payments during the year are disclosed under financing activities in the statement of cash flows.

The comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted.

(iv) Appendix C to Ind AS 12 (Income Taxes) – Uncertainty over income tax treatment: Upon adoption of Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions based on past experience pertaining to income taxes including those related to transfer pricing. The Group has determined its tax position based on tax compliance and present judicial pronouncements and accordingly expects that its tax treatments will be accepted by the taxation authorities.

(iv) Recent accounting pronouncements: Standards issued, but not yet effective:

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

2.2 Revenue recognition

Revenue

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts offered by the Group as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

The Group evaluates the arrangement with customers/ suppliers whether it is acting as a principal or an agent of the customers/ suppliers, considering underlying substance and terms and conditions of the arrangements. Accordingly, revenue is accounted either on gross or net basis based on the fulfilment of criteria of principal or agency.

Sale of products:

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rendering of services:

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. The Group uses input method for measurement of revenue from services as it is directly linked to the expenses incurred by the Group.

Other Operating Revenues:

Other operating revenues comprise of income from ancillary activities incidental to the operations of the Group and is recognised when the right to receive the income is established as per the terms of the contract.

Interest income is accrued on a time basis, by reference to the principal amount outstanding and at effective interest rate as applicable (provided it is probable that economic benefits will flow to the Group and the amount of income can be measured reliably).

2.3 Foreign currency transactions

In preparing the consolidated financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the previous month's average rates of exchange. At the year-end, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the profit or loss in the year in which they arise.

The results and financial position of foreign branch operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rate (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the date of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Government Grants

Government grants (including export incentives) are recognised only when there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

2.6 Employee benefits

Retirement benefit costs and termination benefits:

Payments to defined contribution plans i.e., Group's contribution to recognised provident fund, superannuation fund and other funds are determined under the relevant schemes and/ or statute and recognised in profit or loss in the period of incurrence when the services are rendered by the employees.

For defined benefit plans i.e. Group's liability towards gratuity (funded), other retirement/ terminations benefits and compensated absences, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each year. Defined benefit costs are comprised of:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise of actuarial gains/ loss (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

Short-term and other long-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of salaries, wages, performance incentives, medical benefits and other short term benefits in the period the related service is rendered, at the undiscounted amount of the benefits expected to be paid in exchange for that service.

2.7 Share-based payment arrangements

Share based payments to employees of the Group involving equity instruments of the Parent Company which are granted directly by the Parent Company to the Group's employees (wherein the Parent Company has the obligation to provide the equity instruments) are treated as equity settled share based payments and are measured at the fair value of the equity instruments at the grant date. The fair value so determined based on the Parent Company's estimate is expensed on a straight line basis over the vesting period for equity instruments that will eventually vest, which is recharged by the parent and paid by the Group. The estimate of the total number of equity instruments expected to vest is estimated at the end of each year and is recognised in the impact is recognised in profit or loss.

2.8 Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Current tax:

Current tax is determined on taxable profits for the year chargeable to tax in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 including other applicable tax laws that have been enacted or substantively enacted.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements

and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each year, to recover or settle the carrying amount of its assets and liabilities.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.9 Property, plant and equipment

Cost:

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost (net of duty/ tax credit availed) less accumulated depreciation and accumulated impairment losses, if any. Individual owned assets costing less than USD 5,000 at prevailing exchange rate on the transaction date are written off in profit or loss except in respect of assets purchased as part of a project, in which case limit of USD 5,000 is applied per project.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less impairment loss, if any. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation:

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful lives of the assets, based on a technical evaluation carried out by the Management of the Group, taking into account the nature of the Group's business, past experience of usage of assets, its estimated usage, etc., which are different in certain cases from those prescribed in Schedule II to the Act, are as follows:

Classes of Property, Plant and Equipment	Useful life
Plant, Machinery and Equipment	3 years – 20 years
Furniture and Fixtures	3 years – 20 years
Office Equipment	2 years – 20 years
Computers	3 years – 10 years

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

De-recognition:

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.10 Intangible assets

Intangible assets acquired:

Intangible assets with finite useful lives that are acquired separately is capitalised and carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each year, with the effect of any changes in estimate being accounted for on a prospective basis.

De-recognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets:

Estimated useful lives of the intangible assets, based on technical assessment, are as follows:

Classes of Intangible Assets (Acquired)	Useful life
Software	4 years-5 years
Customer Rights	2 years
Dealership Network	2 years

2.11 Impairment losses

At the end of each year, the Group determines whether there is any indication that its assets (property, plant and equipment and intangible assets) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.12 Leases**The Group as lessor:**

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease classification is made at the inception date and is reassessed only if there is a lease modification. Changes in estimates (for example, changes in estimates of the economic life or of the residual value of the underlying asset), or changes in circumstances (for example, default by the lessee), do not give rise to a new classification of a lease for accounting purposes. For a modification to a finance lease, if the lease would have been classified as an operating lease had the modification been in effect at the inception date, lease modification is accounted as a new lease from the effective date of modification and carrying amount of underlying asset is measured as the net investment in the lease immediately before the effective date of the lease modification.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as lessee:

The Group has lease arrangements for land and buildings for plants and offices, warehouses, equipment and laptops.

The Group assesses whether a contract is or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether : (i) the contract involves the use of an identified asset; (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for leases of low value assets. For these low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made. The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

For a contract that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components.

2.13 Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of raw materials, packing materials, finished goods and traded goods comprises cost of purchases and includes taxes and duties and is net of eligible credits under CENVAT/ VAT schemes. Cost of inventories also includes all other related costs incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of inventories are determined as follows:

- Raw materials, packing materials and traded goods: on weighted average basis; and
- Finished goods: on the basis of absorption costing method.

Cost of surplus/ obsolete/ slow moving inventories are adequately provided for.

2.14 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

2.15 Business Combinations

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquiree, liabilities incurred by the acquiree and the equity interests issued by the Group in exchange of control of the acquiree. At the acquisition-date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is recognised and measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.]

2.16 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification of financial assets

The financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets are added to the fair value of the financial assets on initial recognition.

After initial recognition:

(i) Financial assets (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method.

Effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(ii) Financial assets (i.e. derivative instruments) are subsequently measured at fair value.

Such financial assets are measured at fair value at the end of each year, with any gains or losses arising on re-measurement recognised in profit or loss and included in the "Other Income".

Impairment of financial assets:

A financial asset is regarded as credit impaired when one or more events that may have a detrimental effect on estimated future cash flows of the asset have occurred. The Group applies the expected credit loss model for recognising impairment loss on financial assets (i.e. the shortfall between the contractual cash flows that are due and all the cash flows (discounted) that the Group expects to receive).

De-recognition of financial assets:

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments:

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the "Finance Costs".

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments:

The Group enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks. Further, details of foreign

exchange forward contracts are disclosed in Note 36.

Foreign exchange forward contracts are initially recognised at fair value at the date the contracts are entered into and are subsequently re-measured to their fair value at the end of each year. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank balances in demand deposits with banks which are under lien against bank guarantee are classified as bank balances other than cash and cash equivalents.

3. Critical accounting judgments and key sources of estimation uncertainty

The preparation of consolidated financial statements in conformity with Ind AS requires the Group's Management to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities recognised in the consolidated financial statements that are not readily apparent from other sources. The judgements, estimates and associated assumptions are based on historical experience and other factors including estimation of effects of uncertain future events that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates (accounted on a prospective basis) and recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods of the revision affects both current and future periods.

The following are the critical judgements and estimations that have been made by the Management in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements and/or key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Assessment of recoverable amount of goodwill

On amalgamation of Rohm and Hass India Private Limited during financial year 2015-16, goodwill of Rs. 675.27 million was recognised. The goodwill was allocated between manufacturing plants (CGUs) located at Taloja, Maharashtra (Rs. 416.15 million) and Sriperumbadur, Tamil Nadu (Rs. 259.12 million). The recoverable amounts of the goodwill for impairment assessment were determined based on respective values in use of the CGUs. The value in use has been estimated based on cash flow projections covering five years with terminal value, based on key assumptions such as margins, expected growth rates based on past experience and Management's expectations/ extrapolation of normal increase/ steady terminal growth rate, and appropriate discount rate [17.40%] that reflects current market assessments of time value of money and risks specific to the business. The growth rate of 5% considered for determining terminal value does not exceed the long-term average growth rate for the products, industries and the country in which the Group operates. The Management believes that any reasonable possible change in key assumptions is not expected to cause the aggregate carrying amount to exceed the aggregate recoverable amount of the CGU. Based on this assessment, the Management has determined that goodwill is not impaired as at the year end.

Leases

Ind AS 116 defines a lease term as the non-cancellable period for which the lessee has the right to use an underlying asset including optional periods, when an entity is reasonably certain to exercise the option to extend (or not to terminate) the lease. The Group considers all relevant facts and circumstances that create an economic incentive for the lessee to exercise the option when determining the lease term. The Group reassesses the option when significant events or changes in circumstances occur that are within the control of the lessee.

Taxation

Tax expense is calculated using applicable tax rate and laws that have been enacted or substantially enacted. In arriving at taxable profit and all tax bases of assets and liabilities, the Group determines the taxability based on tax enactments, relevant judicial pronouncements and tax expert opinions, and makes appropriate provisions which includes an estimation of the likely outcome of any open tax assessments / litigations. Any difference is recognised on closure of assessment or in the period in which they are agreed.

Deferred income tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilised.

Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of crystalizing or cannot be quantified reliably are treated as contingent liabilities. The Group involves internal and/ or external subject matter experts to make such assessment. Contingent liabilities are disclosed in the notes but are not recognized. Refer Note 31.

Useful lives of property, plant and equipment and intangible assets

The Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. During the year end, there were no changes in the useful life of assets.

Employee Benefits

Provision for employee benefits in the nature of gratuity and unpaid leave balance is estimated on actuarial basis using a number of assumptions which include assumptions for discount rate, future salary increases, mortality rates, attrition rates for employees, return on planned assets, etc. Any changes in these assumptions will impact the carrying amount of these provisions. Key assumptions are disclosed in Note 34.

Textual information (3)

Disclosure of significant accounting policies [Text Block]

1. General information

Company Background:

Dow Chemical International Private Limited ("the Company" or "the Holding Company") was incorporated on February 13, 1998, as a private limited company. The Company and its subsidiary, CHPM Trading (India) Private Limited, (together referred to as "the Group") are engaged in the business of manufacturing, trading and indenting in chemicals, silicon based chemicals and automotive engineering solutions. The Group is also engaged in back-end support, engineering and research and development activities and has three plants in Lote and Taloja, Maharashtra and Sriperumbadur, Tamil Nadu.

2. Significant accounting policies

2.1 Basis of preparation and presentation

(i) Compliance with Indian Accounting Standards (Ind AS):

The consolidated financial statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act as amended.

(ii) Historical cost convention:

The consolidated financial statements have been prepared on a historical cost basis except for the following:

a) Certain financial assets and liabilities (including derivative instruments): Measured at fair value.

b) Defined benefit plans:- Plan assets measured at fair value

(iii) Application of New Accounting Pronouncements

The Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following major amendment and new accounting standards which became applicable with effect from 1st April 2019:

a) Ind AS 116 – Leases: Ind AS 116 Leases replaced Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Group has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, using the modified retrospective approach.

The Group has made use of the following practical expedients available in its transition to Ind AS 116:

- The Group excluded the initial direct costs from measurement of the RoU asset;
- The Group does not recognize RoU assets and lease liabilities for leases with less than twelve months of lease term and low-value assets on the date of initial application.

On adoption of Ind AS 116,

(i) the Group had recognized right-of-use assets Rs. 1,905.05 million and corresponding lease liabilities of the same amount and thus there was no impact on opening reserves.

(ii) prepaid rent on leasehold land and other assets, which were earlier classified under "Other Assets" have been reclassified to right-of-use assets by Rs. 964.81 million.

The adoption of the new standard has resulted in a reduction of Rs. 28.10 million in retained earnings, net of deferred tax asset of Rs. 9.45 million.

During the year ended March 31, 2020, the Group recognized in the statement of profit and loss

(i) Depreciation expense from right-of-use assets of Rs. 708.43 million {Refer to Note 4 (b)}

(ii) Interest expenses on lease liabilities of Rs. 53.35 million

(iii) Refer to Note 4 (b) for additions to right-of-use assets during the year ended March 31, 2020 and carrying amount of right-of-use assets as at March 31, 2020 by class of underlying asset.

Lease payments during the year are disclosed under financing activities in the statement of cash flows.

The comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted.

(iv) Appendix C to Ind AS 12 (Income Taxes) – Uncertainty over income tax treatment: Upon adoption of Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions based on past experience pertaining to income taxes including those related to transfer pricing. The Group has determined its tax position based on tax compliance and present judicial pronouncements and accordingly expects that its tax treatments will be accepted by the taxation authorities.

(iv) Recent accounting pronouncements: Standards issued, but not yet effective:

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

2.2 Revenue recognition

Revenue

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts offered by the Group as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

The Group evaluates the arrangement with customers/ suppliers whether it is acting as a principal or an agent of the customers/ suppliers, considering underlying substance and terms and conditions of the arrangements. Accordingly, revenue is accounted either on gross or net basis based on the fulfilment of criteria of principal or agency.

Sale of products:

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rendering of services:

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. The Group uses input method for measurement of revenue from services as it is directly linked to the expenses incurred by the Group.

Other Operating Revenues:

Other operating revenues comprise of income from ancillary activities incidental to the operations of the Group and is recognised when the right to receive the income is established as per the terms of the contract.

Interest income is accrued on a time basis, by reference to the principal amount outstanding and at effective interest rate as applicable (provided it is probable that economic benefits will flow to the Group and the amount of income can be measured reliably).

2.3 Foreign currency transactions

In preparing the consolidated financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the previous month's average rates of exchange. At the year-end, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the profit or loss in the year in which they arise.

The results and financial position of foreign branch operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rate (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the date of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Government Grants

Government grants (including export incentives) are recognised only when there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

2.6 Employee benefits

Retirement benefit costs and termination benefits:

Payments to defined contribution plans i.e., Group's contribution to recognised provident fund, superannuation fund and other funds are determined under the relevant schemes and/ or statute and recognised in profit or loss in the period of incurrence when the services are rendered by the employees.

For defined benefit plans i.e. Group's liability towards gratuity (funded), other retirement/ terminations benefits and compensated absences, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each year. Defined benefit costs are comprised of:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise of actuarial gains/ loss (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

Short-term and other long-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of salaries, wages, performance incentives, medical benefits and other short term benefits in the period the related service is rendered, at the undiscounted amount of the benefits expected to be paid in exchange for that service.

2.7 Share-based payment arrangements

Share based payments to employees of the Group involving equity instruments of the Parent Company which are granted directly by the Parent Company to the Group's employees (wherein the Parent Company has the obligation to provide the equity instruments) are treated as equity settled share based payments and are measured at the fair value of the equity instruments at the grant date. The fair value so determined based on the Parent Company's estimate is expensed on a straight line basis over the vesting period for equity instruments that will eventually vest, which is recharged by the parent and paid by the Group. The estimate of the total number of equity instruments expected to vest is estimated at the end of each year and is recognised in the impact is recognised in profit or loss.

2.8 Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Current tax:

Current tax is determined on taxable profits for the year chargeable to tax in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 including other applicable tax laws that have been enacted or substantively enacted.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements

and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each year, to recover or settle the carrying amount of its assets and liabilities.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.9 Property, plant and equipment

Cost:

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost (net of duty/ tax credit availed) less accumulated depreciation and accumulated impairment losses, if any. Individual owned assets costing less than USD 5,000 at prevailing exchange rate on the transaction date are written off in profit or loss except in respect of assets purchased as part of a project, in which case limit of USD 5,000 is applied per project.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less impairment loss, if any. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation:

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful lives of the assets, based on a technical evaluation carried out by the Management of the Group, taking into account the nature of the Group's business, past experience of usage of assets, its estimated usage, etc., which are different in certain cases from those prescribed in Schedule II to the Act, are as follows:

Classes of Property, Plant and Equipment	Useful life
Plant, Machinery and Equipment	3 years – 20 years
Furniture and Fixtures	3 years – 20 years
Office Equipment	2 years – 20 years
Computers	3 years – 10 years

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

De-recognition:

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.10 Intangible assets

Intangible assets acquired:

Intangible assets with finite useful lives that are acquired separately is capitalised and carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each year, with the effect of any changes in estimate being accounted for on a prospective basis.

De-recognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets:

Estimated useful lives of the intangible assets, based on technical assessment, are as follows:

Classes of Intangible Assets (Acquired)	Useful life
Software	4 years-5 years
Customer Rights	2 years
Dealership Network	2 years

2.11 Impairment losses

At the end of each year, the Group determines whether there is any indication that its assets (property, plant and equipment and intangible assets) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.12 Leases**The Group as lessor:**

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease classification is made at the inception date and is reassessed only if there is a lease modification. Changes in estimates (for example, changes in estimates of the economic life or of the residual value of the underlying asset), or changes in circumstances (for example, default by the lessee), do not give rise to a new classification of a lease for accounting purposes. For a modification to a finance lease, if the lease would have been classified as an operating lease had the modification been in effect at the inception date, lease modification is accounted as a new lease from the effective date of modification and carrying amount of underlying asset is measured as the net investment in the lease immediately before the effective date of the lease modification.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as lessee:

The Group has lease arrangements for land and buildings for plants and offices, warehouses, equipment and laptops.

The Group assesses whether a contract is or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether : (i) the contract involves the use of an identified asset; (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for leases of low value assets. For these low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made. The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

For a contract that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components.

2.13 Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of raw materials, packing materials, finished goods and traded goods comprises cost of purchases and includes taxes and duties and is net of eligible credits under CENVAT/ VAT schemes. Cost of inventories also includes all other related costs incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of inventories are determined as follows:

- Raw materials, packing materials and traded goods: on weighted average basis; and
- Finished goods: on the basis of absorption costing method.

Cost of surplus/ obsolete/ slow moving inventories are adequately provided for.

2.14 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

2.15 Business Combinations

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquiree, liabilities incurred by the acquiree and the equity interests issued by the Group in exchange of control of the acquiree. At the acquisition-date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is recognised and measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.]

2.16 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification of financial assets

The financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets are added to the fair value of the financial assets on initial recognition.

After initial recognition:

(i) Financial assets (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method.

Effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(ii) Financial assets (i.e. derivative instruments) are subsequently measured at fair value.

Such financial assets are measured at fair value at the end of each year, with any gains or losses arising on re-measurement recognised in profit or loss and included in the "Other Income".

Impairment of financial assets:

A financial asset is regarded as credit impaired when one or more events that may have a detrimental effect on estimated future cash flows of the asset have occurred. The Group applies the expected credit loss model for recognising impairment loss on financial assets (i.e. the shortfall between the contractual cash flows that are due and all the cash flows (discounted) that the Group expects to receive).

De-recognition of financial assets:

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments:

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the "Finance Costs".

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments:

The Group enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks. Further, details of foreign

exchange forward contracts are disclosed in Note 36.

Foreign exchange forward contracts are initially recognised at fair value at the date the contracts are entered into and are subsequently re-measured to their fair value at the end of each year. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank balances in demand deposits with banks which are under lien against bank guarantee are classified as bank balances other than cash and cash equivalents.

3. Critical accounting judgments and key sources of estimation uncertainty

The preparation of consolidated financial statements in conformity with Ind AS requires the Group's Management to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities recognised in the consolidated financial statements that are not readily apparent from other sources. The judgements, estimates and associated assumptions are based on historical experience and other factors including estimation of effects of uncertain future events that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates (accounted on a prospective basis) and recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods of the revision affects both current and future periods.

The following are the critical judgements and estimations that have been made by the Management in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements and/or key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Assessment of recoverable amount of goodwill

On amalgamation of Rohm and Hass India Private Limited during financial year 2015-16, goodwill of Rs. 675.27 million was recognised. The goodwill was allocated between manufacturing plants (CGUs) located at Taloja, Maharashtra (Rs. 416.15 million) and Sriperumbadur, Tamil Nadu (Rs. 259.12 million). The recoverable amounts of the goodwill for impairment assessment were determined based on respective values in use of the CGUs. The value in use has been estimated based on cash flow projections covering five years with terminal value, based on key assumptions such as margins, expected growth rates based on past experience and Management's expectations/ extrapolation of normal increase/ steady terminal growth rate, and appropriate discount rate [17.40%] that reflects current market assessments of time value of money and risks specific to the business. The growth rate of 5% considered for determining terminal value does not exceed the long-term average growth rate for the products, industries and the country in which the Group operates. The Management believes that any reasonable possible change in key assumptions is not expected to cause the aggregate carrying amount to exceed the aggregate recoverable amount of the CGU. Based on this assessment, the Management has determined that goodwill is not impaired as at the year end.

Leases

Ind AS 116 defines a lease term as the non-cancellable period for which the lessee has the right to use an underlying asset including optional periods, when an entity is reasonably certain to exercise the option to extend (or not to terminate) the lease. The Group considers all relevant facts and circumstances that create an economic incentive for the lessee to exercise the option when determining the lease term. The Group reassesses the option when significant events or changes in circumstances occur that are within the control of the lessee.

Taxation

Tax expense is calculated using applicable tax rate and laws that have been enacted or substantially enacted. In arriving at taxable profit and all tax bases of assets and liabilities, the Group determines the taxability based on tax enactments, relevant judicial pronouncements and tax expert opinions, and makes appropriate provisions which includes an estimation of the likely outcome of any open tax assessments / litigations. Any difference is recognised on closure of assessment or in the period in which they are agreed.

Deferred income tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilised.

Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of crystalizing or cannot be quantified reliably are treated as contingent liabilities. The Group involves internal and/ or external subject matter experts to make such assessment. Contingent liabilities are disclosed in the notes but are not recognized. Refer Note 31.

Useful lives of property, plant and equipment and intangible assets

The Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. During the year end, there were no changes in the useful life of assets.

Employee Benefits

Provision for employee benefits in the nature of gratuity and unpaid leave balance is estimated on actuarial basis using a number of assumptions which include assumptions for discount rate, future salary increases, mortality rates, attrition rates for employees, return on planned assets, etc. Any changes in these assumptions will impact the carrying amount of these provisions. Key assumptions are disclosed in Note 34.

Disclosure of financial instruments [Text Block]

35 Financial Instruments 35.1 Capital management The Company manages its capital to ensure that it will be able to continue as going concern while maximising the return to stakeholders through equity balance. The Company determines the amount of capital required on the basis of annual master planning and budgeting and two year's corporate plan for working capital, capital outlay and long-term product and strategic involvements. The funding requirements are met through borrowings and internal accruals. 35.2 Financial risk management "In course of its business, the Company is exposed to certain financial risks that could have significant influence on the Company's business and operational / financial performance. These include market risk (including currency risk and other price risk), credit risk and liquidity risk. The Board of Directors reviews and approves risk management framework and policies for managing these risks and monitors suitable mitigating actions taken by the Management to minimise potential adverse effects and achieve greater predictability to earnings." The Company uses derivative financial instruments to hedge currency risk exposures in accordance with the Risk Management Policies. (A) Market risk The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates. The Company undertakes transactions denominated in foreign currencies and thus it is exposed to exchange rate fluctuations. The Company actively manages its currency rate exposures, arising from transactions entered and denominated in foreign currencies, by using derivative instruments such as foreign currency forward contracts to mitigate the risks from such exposures. The use of derivative instruments is subject to limits and regular monitoring by the Management. The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows: As at 31st March, 2020 (all amounts are in equivalent Rupees in million):

Currency	Liabilities	Assets	Gross exposure	Exposure hedged using derivatives	Net exposure
USD	(13,362.68)	(13,362.68)	9,981.75	9,981.75	EUR(4.91)-(4.91)11.82-11.82
EUR	(4.91)	(4.91)	11.82	11.82	AUD(0.69)-(0.69)---
AUD	(0.69)	(0.69)	---	---	SGD(0.67)-(0.67)---
SGD	(0.67)	(0.67)	---	---	Others(0.09)-(0.09)0

at 31st March, 2019 (all amounts are in equivalent Rupees in million):

Currency	Liabilities	Assets	Gross exposure	Exposure hedged using derivatives	Net exposure
USD	(13,189.92)	(2,286.03)	(10,903.89)	8,806.00	484.51
EUR	---	---	---	---	0.68
SAR	(0.47)	(0.47)	---	---	CHF(4.24)-(4.24)0.14-0.14
CHF	(4.24)	(4.24)	0.14	0.14	Others(0.05)

currency sensitivity analysis: The Company is mainly exposed to USD currency. A 2% appreciation in Indian Rupee would increase the profits and equity by Rs.67.62 million (2019: Rs. 39.34 million). Similarly, 2% depreciation in Indian Rupee would decrease the profits and equity by such amounts. In Management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not necessarily reflect the exposure during the year. The following table details the forward foreign currency (FC) contracts outstanding at the end of the reporting period:

Particulars	Notional Amounts (in FC million)	Fair value of assets/(liabilities) (in Rupees in million)
As at 31 March 2020	As at 31 March 2019	As at 31 March 2020
Buy USD	Less than 3 months	33.00-8.05
Sell USD	Less than 3 months	7.00-(1.80)

(B) Credit risk Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure and the credit ratings of its counterparties are monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas and hence the Company is not exposed to a concentration risk. Credit evaluation is performed at regular intervals, on the financial condition of accounts receivable and, where appropriate, credit guarantee cover is taken. The Company generally operates on a credit basis. The average credit period is in the range of 30 days to 90 days. The Company bifurcates its trade receivables into related party receivables and third party receivables. In case of related party receivables, there is no history of bad debts and accordingly, the Company has not made any allowance for the same. In case of third party receivables, the Company makes an allowance for doubtful debts using expected credit loss model and also on a case to case basis when required. The Company has used a practical expedient by computing the expected credit loss allowance for third party trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. Provision matrix at the end of the reporting period:

Ageing	Expected credit loss (%)	As at 31st March, 2020	As at 31st March, 2019
Within credit period	0%	11,697.50	15,301.18
1-180 days past due	32.50%	26.10	1,602.18
More than 180 days past due	26.10%	1,602.18	250.19

Movement in expected credit loss allowance: Rupees in million

Year ended	31st March, 2020	31st March, 2019
Rupees	462.27	272.27
Balance at the beginning of the year	5.19	462.27

The credit risk on foreign exchange forward contracts is limited because the counterparties are banks with high credit-ratings. (C) Liquidity risk Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company has obtained fund and non-fund based working capital limits from various banks. The Company invests its surplus funds in bank fixed deposits which carry minimal mark to market risks. The following table summarises the remaining contractual maturity for its non-derivative financial liabilities. Carrying amount Rupees in million

	31st March, 2020	31st March, 2019
Borrowings	2,200.05	2,005.3
Trade payables	17,463.85	15,447.46
Other financial liabilities	820.74	20,484.64

Categories of Financial assets and liabilities: As at 31st March, 2020

	31st March, 2020	31st March, 2019
Rupees	18,701.12	10,962.23
Premises and other security deposits	229.18	213.16
Other financial assets	63.52	848.82

Financial liabilities Measured at amortised cost: Borrowings 2,200.05, 2,005.3, 206.04 Trade Payables 17,463.85, 15,447.46 Employee benefits payable 172.35, 140.1 Other financial liabilities 648.39, 168.41 The management assessed that the fair value of these assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments. 35.4 Fair value measurements: (A) Financial assets and liabilities that are not measured at fair values: The Management considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values. (B) Financial assets and financial liabilities that are measured at fair value on a recurring basis as at the end of each reporting period: Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values for financial assets and financial liabilities have been determined (in particular, the valuation technique(s) and inputs used).

Financial assets/ financial liabilities	Fair value as at	Fair value hierarchy	Valuation technique(s) and key input(s)
31st March, 2020	31st March, 2019	Derivative	

instruments, i.e. forward foreign currency contractsNILAsset – Rs.6.25 millionLevel 2Inputs other than quoted prices included within level 1 that are observable for assets or liability, either directly (i.e. as prices) or indirectly (derived from prices).Note:There were no transfers between Level 1, 2 and 3 during the year.

39 Uncertainty relating to the global health pandemic COVID-19

"In March 2020, the World Health Organisation declared COVID-19 to be a pandemic. The operation of the Company were disrupted since mid of March 20. As on the date, the Company has restarted the operations in a phased manner after obtaining necessary permissions, as required. The Company has considered the possible effects that may result from COVID-19 in the preparation of these financial statements including recoverability of its assets. In developing the assumption relating to future uncertainties in the economic conditions due to COVID-19, it has, at the date of approval of these financial statements, considered relevant internal and external sources of information and expects that the carrying amounts of the assets are recoverable.

The impact of the pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions."

40. The holding Company acquired CHPM Trading (India) Private Limited as subsidiary on 11th February, 2019. CHPM Trading (India) Private Limited has made application to Registrar of Companies, Mumbai on 2nd July, 2019 for strike off under Section 248(2) of the Companies Act, 2013. As per current status available at MCA portal the same is under process of strike off.

34 Retirement benefit plans

I Defined contribution plans

Eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The Company also has a superannuation plan.

The total expense recognised in Statement of profit and loss of Rs. 145.68 million (2019: Rs.125.11 million) represents contribution payable to these plans by the Company at rates specified in the rules of the plan.

II Defined benefit plans

"The Company has a defined benefit gratuity plan (funded) in India. The Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of investment strategy.

Under gratuity plan, employee is entitled to the benefit equivalent to fifteen days salary last drawn for each completed year of service depending on the date of joining, provided employee works for the organisation for 5 or more years. The plan provides for a lump-sum payment to vested employees on termination of service, retirement or death whichever is earlier. The Company accounts for the liability for gratuity benefits payable in the future based on an actuarial valuation. The Company makes annual contributions to a funded gratuity scheme administered by the Life Insurance Corporation of India. Company's liability towards gratuity (funded) is actuarially determined at each reporting date using the projected unit credit method.

"

These plans typically expose the Company to actuarial risks such as: Investment risk, Interest rate risk, Asset Liability Matching risk, Mortality risk, Concentration risk and Salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian Rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.
Interest rate risk	A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.
Asset Liability Matching risk	Plan faces the ALM risk as to the matching cash flow. Since the plan is invested in line of rule 101 Income tax rules 1962 this generally reduces ALM risk.
Mortality risk	Since the benefits under the plan are not payable for life time and payable till retirement age only, plan does not have any mortality risk.
Concentration risk	Plan is having concentration risk as all the assets are invested with the insurance company and the default will wipe out all the assets. Although the probability of this is very less as insurance company have to follow regulatory guidelines.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

During the year, there were no plan amendments, curtailments and settlements.

A separate trust fund is created to manage the Gratuity plan and contribution towards the trust fund is done as guided by rule 103 of Income tax rule 1962.

III. The principal assumptions used for the purposes of the actuarial valuations were as follows:

	As at31st March, 2020	As at31st March, 2019
Gratuity		
Discount rate	6.84%	7.59%
Expected rate of salary increase	8.50%	8.50%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

IV Amounts recognised in statement of profit and loss in respect of this defined benefit plan is as follows:

	Year ended 31st March 2020 Rupees in million	Year ended 31st March 2019 Rupees in million
Gratuity		
Current service cost	41.52	34.14
Net interest expense / (income)	11.71	10.47
Components of defined benefit costs recognised in profit or loss	53.23	44.61
	Year ended 31st March 2020 Rupees in million	Year ended 31st March 2019 Rupees in million
Remeasurement on the net defined benefit liability comprising:		
Actuarial (gains)/losses arising from changes in demographic assumptions	7.89	-
Actuarial (gain)/loss arising from changes in financial assumptions	35.12	41.50
Actuarial (gain)/loss arising from experience adjustments	63.02	(11.71)
Actuarial (gain)/loss on plan assets	(0.62)	(0.95)
Components of defined benefit costs recognised in other comprehensive income	105.42	28.85
Grand Total	158.64	73.46

The current service cost and the net interest expense for the year are included in "contribution to gratuity funds" under employee benefits expense in profit or loss (Refer note 26)

V The amount included in the balance sheet arising from the Company's obligation in respect of its defined benefit plan is as follows:

	As at 31st March, 2020 Rupees in million	As at 31st March, 2019 Rupees in million
Gratuity		
Present value of defined benefit obligation	529.8	389.18
Fair value of plan assets	255.35	272.9
Net liability arising from defined benefit obligation (funded)	274.45	116.28

Gratuity is reflected in "Provision for employee benefits" under provisions. [Refer notes 16 and note 21]

VI Movements in the present value of the defined benefit obligation in the current year were as follows:

	As at 31st March, 2020 Rupees in million	As at 31st March, 2019 Rupees in million
Gratuity		
Opening defined benefit obligation	389.18	336.16
Current Service Cost	41.52	34.14
Interest Cost	29.54	25.92
Actuarial gains/ (loss) - Demographic	7.89	-
Actuarial gains/ (loss) - Financial	35.12	41.5
Actuarial gains/ (loss) - Experience	63.02	-11.71
Benefits paid	-36.47	-18.71
Net transfer in / (out) (including the effect of any business combinations / divestures)		-18.12
Closing defined benefit obligation	529.8	389.18

VII Movements in the fair value of the plan assets in the current year were as follows:

Gratuity	As at 31st March, 2020 Rupees in million	As at 31st March, 2019 Rupees in million
Fair Value of plan assets at beginning of the year	272.9	236.5
Interest Income	17.83	15.45
Return on Plan Assets, Excluding Interest Income	0.63	0.95
Employer contribution	0.46	38.71
Benefits paid (including payments from trust)	-36.47	-18.71
Acquisition/Business Combination/Divestitures	-	-
Closing fair value of plan assets	255.35	272.9

The Company funds the cost of the gratuity expected to be earned on a yearly basis to Life Insurance Corporation of India, which manages the plan assets.

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase.

VIII The sensitivity analysis below has been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period.

	As at 31st March, 2020 Rupees in million	As at 31st March, 2019 Rupees in million
If the discount rate is 100 basis points higher/lower, the defined benefit obligation would:		
discount rate is - 100 basis points	53.37	30.18
discount rate is + 100 basis points	(46.01)	(26.49)
If the expected salary increases/decreases by 100 basis points, the defined benefit obligation would:		
Salary rate is - 100 basis points	(45.65)	(26.48)
Salary rate is + 100 basis points	51.73	29.57
If the rate of employee turnover increases/decreases by 100 basis points, the defined benefit obligation would:		
	As at 31st March, 2020 Rupees in million	As at 31st March, 2019 Rupees in million
employee turnover rate is - 100 basis points	7.35	2.41
employee turnover rate is + 100 basis points	(6.59)	(2.20)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of each reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from previous year.

The Company expects to make a contribution of 45million (2019: NIL) to the defined benefit plans (gratuity - funded) during the next financial year.

The average duration of the benefit obligation (gratuity) as at 31st March, 2020 is 10 years (2019: 9 years).

IX Experience adjustments (*)	Rupees in million				
	2019-20	2018-19	2017-18	2016-17	2015-16
Present value of obligation as at the end of the year	529.8	389.17	336.16	344.29	255.12
Fair value of plan assets as at the end of the year	255.35	272.9	236.5	159.08	126.02
Surplus/ (Deficit)	274.45	-116.27	-99.66	-185.21	-129.1
Experience Adjustments on Plan Liabilities	63.02	-11.71	1.53	19.75	7.97
Experience Adjustments on Plan Assets	0.63	0.95	2.59	3.12	1.16

X Composition of fund balance		
	Percentage	
Description	31st March, 2020	31st March, 2019

28.1 Lease arrangements

Company has taken office premises, laptops, warehouse and terminal facilities on lease. The weighted average rate of discount applied to lease liabilities as at April 1, 2019 is 3.7%. The lease liabilities as at 1 April 2019 can be reconciled to the operating lease commitments as of 31 March 2019 as follows:

	Year Ended 31st March, 2020 Rupees in million
Operating Lease Commitments disclosed as at 31 March 2019	2,196.84
Less: Impact of discounting on operating lease liability	(163.84)
Less: Short term leases not recognised as a liability	-
Less: Low value leases not recognised as a liability	(121.01)
Lease liabilities recognised at April 1, 2019	1,911.99

During the year ended March 31, 2020, the Company recognized in the statement of profit and loss: a) Rent expense amounting to Rs. 345.09 million pertaining to leases of low-value assets and Rs. 13.08 million pertaining to leases with less than twelve months of lease term has been included under operating lease rentals and purchased services. (b) Income from subleasing right-of-use assets of Rs. 3.00 million.

Year ended 31st March, 2019

a) Non- Cancellable operating lease commitments

	As at 31st March, 2019 Rupees in million
Future minimum rentals payable under non-cancellable leases are as follows:	
Not later than 1 year	746.55
Later than 1 year and not later than 5 years	1,358.41
Later than 5 years	91.87
Total	2,196.84

Lease rent charged to Statement of Profit and Loss for the year ended March 31, 2019 was Rs. 607.98 million (including sub-lease payments of Rs.1.80 million) in respect of these assets.

b) The Company has taken warehouses, vehicles and furniture on cancellable lease arrangements. Lease payments charged to the Statement of Profit and Loss for the year ended March 31, 2019 in respect of these arrangements was Rs. 205.79 million

Notes

The Company's operating segment are established on the basis of the components that are evaluated regularly by the Chief Financial Officer and Chief Executive Officer (the "Chief Operating Decision Maker" as defined in Ind AS 108 – 'Operating Segments'), in deciding how to allocate resources and assessing performance. These have been identified taking into account nature of goods and services, the management structure, the internal financial reporting and the differential risks and returns of products in each segment. Business segment have been considered as the primary segment.

"The Company has the following principal segments :-

- Manufacturing/ Trading - Manufacturing of Polyurethane Systems and trading in Polyurethane Systems including Crosslinkers.
- Indenting : Commission Income
- India Engineering Center : Simulations, Testing, and Designing unit,
- Support Services: Back-office support and services.
- Research & Development Center : Research and Development services.

The accounting policies adopted for segment reporting are in line with the accounting policy of the Company with the following additional policies for segment reporting.

- a) Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable"
- b) Segment Assets and Segment Liabilities represent Assets and Liabilities as respective segments. Tax related assets other assets and liabilities

that cannot be allocated to a segment on a reasonable basis have been disclosed as "Unallocable".

"

37 Business Combination

(a) "During the previous year, the 'Speciality Product Business' of the Company was demerged, and transferred to DDP Speciality India Private Limited (fellow subsidiary) with effect from 1st April, 2018 (appointed date), pursuant to the scheme of arrangement ("the scheme") under sections 230 to 232 of the Act 2013 which was approved by the NCLT on 27th September, 2018. The scheme became effective on 1st November, 2018 upon completion of the formalities required under the Act.

The difference between book values of assets and liabilities of the demerged business amounting to Rs 736.07 million was debited to retained earnings as prescribed under the Scheme."

(b) In FY 2015-16, Rohm and Hass India Private Limited, ("ROH or Transferor Company"), engaged in the business of manufacturing, trading and marketing of 'Speciality materials', was amalgamated with the Company ("Transferee Company") pursuant to a Scheme of Amalgamation (the Scheme) approved by the Hon'ble High Court of Bombay on 22nd January, 2016. The appointed date of the Scheme was 1st April, 2015 and the Scheme became effective on 27th February, 2016, being the date on which all the requirements under the Companies Act, 1956 / 2013 were completed. Consequently, the entire undertaking and the business, including all assets and liabilities of the Transferor Company were transferred to and vested in the Transferee Company from the aforesaid appointed date. The amalgamation was accounted by recording all assets and liabilities of the transferee company at their respective fair values as per the order of Honorable High Court, resulting into recognition of goodwill.

Textual information (13)

Disclosure of contingent liabilities [Text Block]

	As at 31st March, 2020	As at 31st March, 2019
	Rupees in million	Rupees in million
30 Contingent liabilities and Commitments		
Tax demands disputed in appeals:		
a) VAT, Sales Tax and Cess - These relate to non-submission of 'C'/'F' forms at the time of initial assessment and disallowance of input credit	538.70	450.26
b) Service tax - disallowance of CENVAT credit on certain services, rejection of refund claim and disallowance of ISD transfer to manufacturing unit for financial year 2007 to 2015	1,000.54	1,118.08
c) Income tax:		
Mainly pertains to transfer pricing adjustments in respect of AY 2010-11, AY 2011-12, 2012-13 and 2014-15 for recharges by overseas related parties for services rendered to the Company aggregating Rs. 3,844.34 million (2019: Rs. 3,844.34 million) [tax demanded Rs. 1,833.90 million (2019: Rs. 1,833.90 million)]. The Company has made a provision of Rs. 808.71 million [including interest upto 31st March 2020 (2019: Rs. 752.83 million - including interest upto 31st March 2019)] for certain services based on its assessment of availability of documents, details etc. In respect of recharges for similar services received by the Company for assessment years subsequent to the above, the Company is confident of providing adequate documentation to substantiate the recharges and accordingly doesn't expect any liability to arise in respect to support the recharges	706.95	706.95
d) Customs duty- Refund receivable of Special Additional Duty (SAD)	125.72	108.29
e) Excise duty - Pertains to deemed manufacturing	121.57	121.57
Future cash outflows in respect of (a) to (e) above are determinable only on receipt of judgements/decisions pending with various forums/authorities. The Company is confident of successfully contesting any such demands in appeals and does not expect the liability to crystallise.
