INDEPENDENT AUDITOR'S REPORT

To The Members of Dow Chemical International Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Dow Chemical International Private Limited ("the Parent") and its subsidiary, (the Parent and its subsidiary together referred to as "the Group") which comprise the Consolidated Balance Sheet as at 31st March 2019, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements of the subsidiary referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2019, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of its report referred in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the consolidated financial statements, the standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiary audited by the other auditor, to the extent it relates to this entity and, in doing so, place reliance on the work of the other auditor and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary, is traced from its financial statements audited by the other auditor.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

We did not audit the financial statements of a subsidiary, whose financial statements reflect total assets of Rs. 0.46 million as at 31st March, 2019, total revenue of Rs. Nil and net cash flow amounting to Rs. Nil for the year ended on that date, as considered in the consolidated financial statements. This financial statements has been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the report of the other auditor.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditor on the separate financial statements of the subsidiary referred to in the Other Matters section above we report, to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent as on 31st March, 2019 taken on record by the Board of Directors of the Company and the report of the statutory auditor of its subsidiary company incorporated in India, none of the directors of the Group companies is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and the subsidiary company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of the Parent. Reporting by auditor on internal financial controls over financial reporting is not applicable to the subsidiary company as per the auditor's report of the said subsidiary company.
- g) In our opinion and to the best of our information and according to the explanations given to us, the Parent being a private company, section 197 of the Act related to the managerial remuneration is not applicable.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
- ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
- iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Parent and its subsidiary company incorporated in India.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial controls over financial reporting of Dow Chemical International Private Limited (hereinafter referred to as "the Parent"). Reporting by auditor on internal financial controls over financial reporting is not applicable to the subsidiary company as per the auditor's report of the said subsidiary company.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Parent and its subsidiary company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Parent's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Parent's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Parent, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 14.OTHER EQUITY

A.Securities premium reserve represents premium received on equity shares issued, which can be utilised only in accordance with the provisions of the Act for specified purposes.

B.The Company has recognised Capital Redemption Reserve on buy-back of equity shares. The amount in Capital Redemption Reserve is equal to the nominal amount of equity shares brought back. The reserve can be utilised in accordance with the provisions of the Companies Act, 2013

C.General reserve is created from time to time by transferring profits from retained earnings and can be utilised for purposes such as dividend payout, bonus issue, etc.

D.This relates to accounting impact in accordance to the Ind-AS 102, less recharges made by a related party on account of share based payments. (Refer Note 32)

E.Retained earnings are the profits that Group[has earned to date, less any dividends or other distributions paid to investors.

F.Dow Corning India Private Limited was merged with the Group in financial year 2017-18. On account of this merger, capital reserve was created.

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2018 to 31/03/2019
Disclosure of significant accounting policies [TextBlock]	Textual information (3) [See below]

Textual information (3)

Disclosure of significant accounting policies [Text Block]

1. General information

Company Background:

Dow Chemical International Private Limited ("the Company" or "the Holding Company") was incorporated on February 13, 1998, as a private limited company. The Company and its subsidiary, CHPM Trading (India) Private Limited, (together referred to as "the Group") are engaged in the business of manufacturing, trading and indenting in chemicals, silicon based chemicals and automotive engineering solutions. The Group is also engaged in back-end support, engineering and research and development activities and has three plants in Lote and Taloja, Maharashtra and Sriperumbudur, Tamil Nadu.

2. Significant accounting policies

2.1 Basis of preparation and presentation

(i) Compliance with Indian Accounting Standards (Ind AS):

The consolidated financial statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act as amended.

(ii) Historical cost convention:

The consolidated financial statements have been prepared on a historical cost basis except for the following:

a) Certain financial assets and liabilities (including derivative instruments): Measured at fair value.

b) Defined benefit plans:- Plan assets measured at fair value

(iii) Application of New Accounting Pronouncements

The Group has applied the following Ind AS pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The effect is described below:

a) The Group has adopted Ind AS 115, Revenue from Contract with Customers with effect from 1st April 2018 and it is detailed in note 23.

b) The Group has elected to recognize cumulative effect of initially applying Ind AS 115 retrospectively as an adjustment to opening balance sheet as at 1st April 2018 on the contracts that are not completed contract as at that date. There was no impact of above on the opening balance sheet as at 1st April 2018 and on the Statement of Profit and Loss for the year ended 31st March, 2019.

(iv) Recent accounting pronouncements: Standards issued, but not yet effective:

a) Ind AS 116: Ind AS 116 Leases was notified on 30th March, 2019 by the Ministry of Corporate Affairs. It replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1st April, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases (i.e. leases with a lease term of 12 months or less).

At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right to use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right to use asset. Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right to use asset.

The standard permits two possible methods of transition i.e. Full retrospective - Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors and Modified retrospective-Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

The Group is analysing the lease contracts and in the process of assessing the impact of this new standard on the Group's consolidated financial statements.

b) Appendix C, Uncertainty over Income Tax Treatment to Ind AS 12, Income Taxes: The Appendix C clarifies how to apply the recognition and measurement principles while recognizing current tax, deferred tax, taxable profits (losses), tax bases, unused tax losses, unused tax credits and tax rates when there is uncertainty over tax treatments under Ind AS 12. As per Appendix, the Group needs to assess whether it is probable that a

tax authority will accept an uncertain tax treatment used or a treatment, which is being proposed to be used in its income tax filings. The Appendix will be applied retrospectively with the cumulative effect of its initial application on the opening balance sheet as on 1st April, 2019. The impact of the Appendix on the consolidated financial statements, as assessed by Group, is expected to be not material.

c) Amendment to Ind AS 12, Income taxes: The amendment clarifies that an entity shall recognize income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Group will apply these amendments for annual reporting periods beginning on or after 1st April, 2019. The impact on the consolidated financial statements is being evaluated.

d) Ind AS 19 – Employee benefits (amendments relating to plan amendment, curtailment or settlement): The amendments clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the remeasurement. In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The Group does not expect this amendment to have any significant impact on its consolidated financial statements.

2.2 Revenue recognition

Revenue

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts offered by the Group as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Sale of products:

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rendering of services:

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. The Group uses input method for measurement of revenue from services as it is directly linked to the expenses incurred by the Group.

Other Operating Revenues:

Other operating revenues comprise of income from ancillary activities incidental to the operations of the Group and is recognised when the right to receive the income is established as per the terms of the contract.

Revenue from services embedded in contract for sale of goods namely freight and insurance services mainly in case of export sales, is recognised upon completion of services.

Interest income is accrued on a time basis, by reference to the principal amount outstanding and at effective interest rate as applicable (provided it is probable that economic benefits will flow to the Group and the amount of income can be measured reliably).

2.3 Foreign currency transactions

In preparing the consolidated financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the previous month's average rates of exchange. At the year-end, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the profit or loss in the year in which they arise.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Government Grants

Government grants (including export incentives) are recognised only when there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

2.6 Employee benefits

Retirement benefit costs and termination benefits:

Payments to defined contribution plans i.e., Group's contribution to recognised provident fund, superannuation fund and other funds are determined under the relevant schemes and/ or statute and recognised in profit or loss in the period of incurrence when the services are rendered by the employees.

For defined benefit plans i.e. Group's liability towards gratuity (funded), other retirement/ terminations benefits and compensated absences, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each year. Defined benefit costs are comprised of:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise of actuarial gains/ loss (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

Short-term and other long-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of salaries, wages, performance incentives, medical benefits and other short term benefits in the period the related service is rendered, at the undiscounted amount of the benefits expected to be paid in exchange for that service.

2.7 Share-based payment arrangements

Share based payments to employees of the Group involving equity instruments of the Parent Company which are granted directly by the Parent Company to the Group's employees (wherein the Parent Company has the obligation to provide the equity instruments) are treated as equity settled share based payments and are measured at the fair value of the equity instruments at the grant date. The fair value so determined based on the Parent Company's estimate is expensed on a straight line basis over the vesting period for equity instruments that will eventually vest, which is recharged by the parent and paid by the Group. The estimate of the total number of equity instruments expected to vest is estimated at the end of each year and is recognised in the impact is recognised in profit or loss.

2.8 Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Current tax:

Current tax is determined on taxable profits for the year chargeable to tax in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 including other applicable tax laws that have been enacted or substantively enacted.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset

realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each year, to recover or settle the carrying amount of its assets and liabilities.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.9 Property, plant and equipment

Cost:

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost (net of duty/ tax credit availed) less accumulated depreciation and accumulated impairment losses, if any. Individual owned assets costing less than USD 5,000 at prevailing exchange rate on the transaction date are written off in profit or loss except in respect of assets purchased as part of a project, in which case limit of USD 5,000 is applied per project.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less impairment loss, if any. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation:

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful lives of the assets, based on a technical evaluation carried out by the Management of the Group, taking into account the nature of the Group's business, past experience of usage of assets, its estimated usage, etc., which are different in certain cases from those prescribed in Schedule II to the Act, are as follows:

Classes of Property, Plant and Equipment	Useful life
Plant, Machinery and Equipment	3 years – 20 years
Furniture and Fixtures	3 years – 20 years
Office Equipment	2 years – 20 years
Computers	3 years – 7 years

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

De-recognition:

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.10 Intangible assets

Intangible assets acquired:

Intangible assets with finite useful lives that are acquired separately is capitalised and carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each year, with the effect of any changes in estimate being accounted for on a prospective basis.

De-recognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets:

Estimated useful lives of the intangible assets, based on technical assessment, are as follows:

Classes of Intangible Assets (Acquired)	Useful life
---	-------------

Software	4 years
Customer Rights	2 years
Dealership Network	2 years

2.11 Impairment losses

At the end of each year, the Group determines whether there is any indication that its assets (property, plant and equipment and intangible assets) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.12 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

Interest free lease deposits are remeasured at amortised cost by the effective interest rate method. The difference between the transaction value of the deposit and amortised cost is regarded as prepaid rent and recognised as expense uniformly over the lease period. Interest income, measured by the effective interest rate method is accrued.

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in the arrangement.

2.13 Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of raw materials, packing materials, finished goods and traded goods comprises cost of purchases and includes taxes and duties and is net of eligible credits under CENVAT/ VAT schemes. Cost of inventories also includes all other related costs incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of inventories are determined as follows:

- Raw materials, packing materials and traded goods: on weighted average basis; and
- Finished goods: on the basis of absorption costing method.

Cost of surplus/ obsolete/ slow moving inventories are adequately provided for.

2.14 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

2.15 Business Combinations

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquiree, liabilities incurred by the

acquiree and the equity interests issued by the Group in exchange of control of the acquiree. At the acquisition-date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is recognised and measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

2.16 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification of financial assets

The financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets are added to the fair value of the financial assets on initial recognition.

After initial recognition:

(i) Financial assets (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method.

Effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(ii) Financial assets (i.e. derivative instruments) are subsequently measured at fair value.

Such financial assets are measured at fair value at the end of each year, with any gains or losses arising on re-measurement recognised in profit or loss and included in the "Other Income".

Impairment of financial assets:

A financial asset is regarded as credit impaired when one or more events that may have a detrimental effect on estimated future cash flows of the asset have occurred. The Group applies the expected credit loss model for recognising impairment loss on financial assets (i.e. the shortfall between the contractual cash flows that are due and all the cash flows (discounted) that the Group expects to receive).

De-recognition of financial assets:

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments:

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the "Finance Costs".

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments:

The Group enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks. Further, details of foreign exchange forward contracts are disclosed in Note 35.

Foreign exchange forward contracts are initially recognised at fair value at the date the contracts are entered into and are subsequently re-measured to their fair value at the end of each year. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17 Cash and cash equivalents

Cash comprises cash on hand, demand drafts in hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank balances in demand deposits with banks which are under lien against bank guarantee are classified as bank balances other than cash and cash equivalents.

2.18 Basis of Consolidation

The Consolidated Financial Statements incorporate the financial statements of the Company and its subsidiary.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit and loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Textual information (4)

Disclosure of significant accounting policies [Text Block]

1. General information

Company Background:

Dow Chemical International Private Limited ("the Company" or "the Holding Company") was incorporated on February 13, 1998, as a private limited company. The Company and its subsidiary, CHPM Trading (India) Private Limited, (together referred to as "the Group") are engaged in the business of manufacturing, trading and indenting in chemicals, silicon based chemicals and automotive engineering solutions. The Group is also engaged in back-end support, engineering and research and development activities and has three plants in Lote and Taloja, Maharashtra and Sriperumbudur, Tamil Nadu.

2. Significant accounting policies

2.1 Basis of preparation and presentation

(i) Compliance with Indian Accounting Standards (Ind AS):

The consolidated financial statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act as amended.

(ii) Historical cost convention:

The consolidated financial statements have been prepared on a historical cost basis except for the following:

a) Certain financial assets and liabilities (including derivative instruments): Measured at fair value.

b) Defined benefit plans:- Plan assets measured at fair value

(iii) Application of New Accounting Pronouncements

The Group has applied the following Ind AS pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The effect is described below:

a) The Group has adopted Ind AS 115, Revenue from Contract with Customers with effect from 1st April 2018 and it is detailed in note 23.

b) The Group has elected to recognize cumulative effect of initially applying Ind AS 115 retrospectively as an adjustment to opening balance sheet as at 1st April 2018 on the contracts that are not completed contract as at that date. There was no impact of above on the opening balance sheet as at 1st April 2018 and on the Statement of Profit and Loss for the year ended 31st March, 2019.

(iv) Recent accounting pronouncements: Standards issued, but not yet effective:

a) Ind AS 116: Ind AS 116 Leases was notified on 30th March, 2019 by the Ministry of Corporate Affairs. It replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1st April, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases (i.e. leases with a lease term of 12 months or less).

At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right to use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right to use asset. Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right to use asset.

The standard permits two possible methods of transition i.e. Full retrospective - Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors and Modified retrospective-Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

The Group is analysing the lease contracts and in the process of assessing the impact of this new standard on the Group's consolidated financial statements.

b) Appendix C, Uncertainty over Income Tax Treatment to Ind AS 12, Income Taxes: The Appendix C clarifies how to apply the recognition and measurement principles while recognizing current tax, deferred tax, taxable profits (losses), tax bases, unused tax losses, unused tax credits and tax rates when there is uncertainty over tax treatments under Ind AS 12. As per Appendix, the Group needs to assess whether it is probable that a

tax authority will accept an uncertain tax treatment used or a treatment, which is being proposed to be used in its income tax filings. The Appendix will be applied retrospectively with the cumulative effect of its initial application on the opening balance sheet as on 1st April, 2019. The impact of the Appendix on the consolidated financial statements, as assessed by Group, is expected to be not material.

c) Amendment to Ind AS 12, Income taxes: The amendment clarifies that an entity shall recognize income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Group will apply these amendments for annual reporting periods beginning on or after 1st April, 2019. The impact on the consolidated financial statements is being evaluated.

d) Ind AS 19 – Employee benefits (amendments relating to plan amendment, curtailment or settlement): The amendments clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the remeasurement. In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The Group does not expect this amendment to have any significant impact on its consolidated financial statements.

2.2 Revenue recognition

Revenue

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts offered by the Group as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Sale of products:

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Rendering of services:

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. The Group uses input method for measurement of revenue from services as it is directly linked to the expenses incurred by the Group.

Other Operating Revenues:

Other operating revenues comprise of income from ancillary activities incidental to the operations of the Group and is recognised when the right to receive the income is established as per the terms of the contract.

Revenue from services embedded in contract for sale of goods namely freight and insurance services mainly in case of export sales, is recognised upon completion of services.

Interest income is accrued on a time basis, by reference to the principal amount outstanding and at effective interest rate as applicable (provided it is probable that economic benefits will flow to the Group and the amount of income can be measured reliably).

2.3 Foreign currency transactions

In preparing the consolidated financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the previous month's average rates of exchange. At the year-end, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the profit or loss in the year in which they arise.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Government Grants

Government grants (including export incentives) are recognised only when there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

2.6 Employee benefits

Retirement benefit costs and termination benefits:

Payments to defined contribution plans i.e., Group's contribution to recognised provident fund, superannuation fund and other funds are determined under the relevant schemes and/ or statute and recognised in profit or loss in the period of incurrence when the services are rendered by the employees.

For defined benefit plans i.e. Group's liability towards gratuity (funded), other retirement/ terminations benefits and compensated absences, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each year. Defined benefit costs are comprised of:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise of actuarial gains/ loss (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

Short-term and other long-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of salaries, wages, performance incentives, medical benefits and other short term benefits in the period the related service is rendered, at the undiscounted amount of the benefits expected to be paid in exchange for that service.

2.7 Share-based payment arrangements

Share based payments to employees of the Group involving equity instruments of the Parent Company which are granted directly by the Parent Company to the Group's employees (wherein the Parent Company has the obligation to provide the equity instruments) are treated as equity settled share based payments and are measured at the fair value of the equity instruments at the grant date. The fair value so determined based on the Parent Company's estimate is expensed on a straight line basis over the vesting period for equity instruments that will eventually vest, which is recharged by the parent and paid by the Group. The estimate of the total number of equity instruments expected to vest is estimated at the end of each year and is recognised in the impact is recognised in profit or loss.

2.8 Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Current tax:

Current tax is determined on taxable profits for the year chargeable to tax in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 including other applicable tax laws that have been enacted or substantively enacted.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset

realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each year, to recover or settle the carrying amount of its assets and liabilities.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.9 Property, plant and equipment

Cost:

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost (net of duty/ tax credit availed) less accumulated depreciation and accumulated impairment losses, if any. Individual owned assets costing less than USD 5,000 at prevailing exchange rate on the transaction date are written off in profit or loss except in respect of assets purchased as part of a project, in which case limit of USD 5,000 is applied per project.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less impairment loss, if any. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation:

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful lives of the assets, based on a technical evaluation carried out by the Management of the Group, taking into account the nature of the Group's business, past experience of usage of assets, its estimated usage, etc., which are different in certain cases from those prescribed in Schedule II to the Act, are as follows:

Classes of Property, Plant and Equipment	Useful life
Plant, Machinery and Equipment	3 years – 20 years
Furniture and Fixtures	3 years – 20 years
Office Equipment	2 years – 20 years
Computers	3 years – 7 years

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

De-recognition:

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.10 Intangible assets

Intangible assets acquired:

Intangible assets with finite useful lives that are acquired separately is capitalised and carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each year, with the effect of any changes in estimate being accounted for on a prospective basis.

De-recognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets:

Estimated useful lives of the intangible assets, based on technical assessment, are as follows:

Classes of Intangible Assets (Acquired)	Useful life
---	-------------

Software	4 years
Customer Rights	2 years
Dealership Network	2 years

2.11 Impairment losses

At the end of each year, the Group determines whether there is any indication that its assets (property, plant and equipment and intangible assets) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.12 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

Interest free lease deposits are remeasured at amortised cost by the effective interest rate method. The difference between the transaction value of the deposit and amortised cost is regarded as prepaid rent and recognised as expense uniformly over the lease period. Interest income, measured by the effective interest rate method is accrued.

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in the arrangement.

2.13 Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of raw materials, packing materials, finished goods and traded goods comprises cost of purchases and includes taxes and duties and is net of eligible credits under CENVAT/ VAT schemes. Cost of inventories also includes all other related costs incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of inventories are determined as follows:

- Raw materials, packing materials and traded goods: on weighted average basis; and
- Finished goods: on the basis of absorption costing method.

Cost of surplus/ obsolete/ slow moving inventories are adequately provided for.

2.14 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

2.15 Business Combinations

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquiree, liabilities incurred by the

acquiree and the equity interests issued by the Group in exchange of control of the acquiree. At the acquisition-date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is recognised and measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

2.16 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Classification of financial assets

The financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets are added to the fair value of the financial assets on initial recognition.

After initial recognition:

(i) Financial assets (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method.

Effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(ii) Financial assets (i.e. derivative instruments) are subsequently measured at fair value.

Such financial assets are measured at fair value at the end of each year, with any gains or losses arising on re-measurement recognised in profit or loss and included in the "Other Income".

Impairment of financial assets:

A financial asset is regarded as credit impaired when one or more events that may have a detrimental effect on estimated future cash flows of the asset have occurred. The Group applies the expected credit loss model for recognising impairment loss on financial assets (i.e. the shortfall between the contractual cash flows that are due and all the cash flows (discounted) that the Group expects to receive).

De-recognition of financial assets:

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments:

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities (other than derivative instruments) are subsequently measured at amortised cost using the effective interest method. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the "Finance Costs".

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments:

The Group enters into foreign exchange forward contracts to manage its exposure to foreign exchange rate risks. Further, details of foreign exchange forward contracts are disclosed in Note 35.

Foreign exchange forward contracts are initially recognised at fair value at the date the contracts are entered into and are subsequently re-measured to their fair value at the end of each year. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17 Cash and cash equivalents

Cash comprises cash on hand, demand drafts in hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank balances in demand deposits with banks which are under lien against bank guarantee are classified as bank balances other than cash and cash equivalents.

2.18 Basis of Consolidation

The Consolidated Financial Statements incorporate the financial statements of the Company and its subsidiary.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit and loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Disclosure of financial instruments [Text Block]

35Financial Instruments35.1Capital managementThe Group manages its capital to ensure that it will be able to continue as going concern while maximising the return to stakeholders through equity balance. The Group determines the amount of capital required on the basis of annual master planning and budgeting and two year's corporate plan for working capital, capital outlay and long-term product and strategic involvements. The funding requirements are met through borrowings and internal accruals.35.2Financial risk managementIn course of its business, the Group is exposed to certain financial risks that could have significant influence on the Group's business and operational / financial performance. These include market risk (including currency risk and other price risk), credit risk and liquidity risk.The Board of Directors reviews and approves risk management framework and policies for managing these risks and monitors suitable mitigating actions taken by the Management to minimise potential adverse effects and achieve greater predictability to earnings.The Group uses derivative financial instruments to hedge currency risk exposures in accordance with the Risk Management Policies.(A) Market riskThe Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates.The Group undertakes transactions denominated in foreign currencies and thus it is exposed to exchange rate fluctuations. The Group actively manages its currency rate exposures, arising from transactions entered and denominated in foreign currencies, by using derivative instruments such as foreign currency forward contracts to mitigate the risks from such exposures. The use of derivative instruments is subject to limits and regular monitoring by the Management.The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:As at 31st March, 2019 (all amounts are in equivalent Rupees in million):CurrencyLiabilitiesAssetsGross exposureExposure hedged using derivativesNet exposureGross exposureExposure hedged using derivativesNet exposureUSD(13,189.92)(2,286.03)(10,903.89)9,421,49484.518,936.98EUR---0.68-0.68SAR(0.47)-(0.47)---CHF(4.24)-(4.24)0.14-0.14Others(0.0)currency sensitivity analysis:The Group is mainly exposed to USD currency. A 2% appreciation in Indian Rupee would increase the profits and equity by Rs.51.65 million. Similarly, 2% depreciation in Indian Rupee would decrease the profits and equity by such amounts.In Management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not necessarily reflect the exposure during the year.The following table details the forward foreign currency (FC) contracts outstanding at the end of the reporting period:ParticularsNotional Amounts (in FC million)Fair value of assets/(liabilities) (in Rupees in million)As at 31 March 2019As at 31 March 2019Buy USDLess than 3 months33.008.05Sell USDLess than 3 months7.00(1.80)(B) Credit riskCredit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas and hence the Group is not exposed to a concentration risk. Credit evaluation is performed at regular intervals, on the financial condition of accounts receivable and, where appropriate, credit guarantee cover is taken. The Group generally operates on a credit basis. The average credit period is in the range of 30 days to 90 days.The Group bifurcates its trade receivables into related party receivables and third party receivables. In case of related party receivables, there is no history of bad debts and accordingly, the Group has not made any allowance for the same. In case of third party receivables, the Group makes an allowance for doubtful debts using expected credit loss model and also on a case to case basis when required. The Group has used a practical expedient by computing the expected credit loss allowance for third party trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. Provision matrix at the end of the reporting period:AgeingExpected credit loss (%)As at 31st March, 2019Within credit period0%-180 days past due0%More than 180 days past due26.1%Age of trade receivables (other than related parties):As at 31st March, 2019RupeesWithin credit period8,150.301-180 days past due250.19More than 180 days past due8.70Movement in expected credit loss allowance:Rupees in millionYear ended 31st March, 2019RupeesBalance at the beginning of the year20.21Incremental expected credit loss allowance(17.94)Balance at the end of the year2.27The credit risk on foreign exchange forward contracts is limited because the counterparties are banks with high credit-ratings.(C) Liquidity riskLiquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group has obtained fund and non-fund based working capital limits from various banks. The Group invests its surplus funds in bank fixed deposits which carry minimal mark to market risks.he following table summarises the remaining contractual maturity for its non-derivative financial liabilities.31st March, 2019Carrying amount Rupees in million (Borrowings3,206.04Trade payables15,447.45Other financial liabilities308,483,041.5635.3Categories of Financial assets and liabilities:As at 31st March, 2019 RupeesFinancial assetsMeasured at amortised cost:Cash and cash equivalents176.49Trade receivables (net of allowance)10,962.23Premises and other security deposits231.16Other financial assets2,848.82Financial liabilitiesa. Measured at amortised cost:Borrowings3,206.04Trade Payables15,447.45Employee benefits payable140.10Other financial liabilities168.39The management assessed that the fair value of these assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.35.4Fair value measurements:(A) Financial assets and liabilities that are not measured at fair values:The Management considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.(B) Financial assets and financial liabilities that are measured at fair value on a recurring basis as at the end of each reporting period:Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values for financial assets and financial liabilities have been determined (in particular, the valuation technique(s) and inputs used).Financial assets/ financial liabilitiesFair value as atFair value hierarchyValuation technique(s) and key input(s)31st March,2019Derivative instruments, i.e. forward foreign currency contractsAsset – Rs.6.25 millionLevel 2Inputs other than quoted prices included within level 1 that are observable for assets or liability, either directly (i.e. as prices) or indirectly (derived from prices).Note:There were no transfers between Level 1, 2 and 3 during the year.

Textual information (9)

Disclosure of income tax [Text Block]

Note 29. Income taxes relating to continuing operations

29.3 Income tax recognised in other comprehensive income

	Year ended 31st March 2019 Rupees in million
Deferred tax	
Arising on income and expenses recognised in other comprehensive income:	
Remeasurement of defined benefit obligation	10.08
Total income tax recognised in other comprehensive income	10.08

29 Movement of tax expense during the year ended 31st March, 2019 Rupees in million

Particulars	Opening balance	Recognised in profit or loss	Recognised in other comprehensive income	Closing balance
Deferred tax (liabilities)/assets in relation to:				
Property, plant & equipment and intangible assets	(43.36)	(63.75)	-	(107.11)
Provision for compensated absences	36.73	49.03	-	85.76
Provision for Gratuity	34.82	(4.27)	10.08	40.63
Expenditure allowed upon payments	151.94	(54.56)	-	97.38
Provision for ESOP	-	(14.59)	-	(14.59)
Provision for investment In subsidiary	-	0.15	-	0.15
Provision for slow moving obsolete goods(SMOG)	-	18.30	-	18.30
Fairvaluation of leasehold land	(290.20)	3.90	-	(286.30)
Other temporary differences	102.58	(47.64)	-	54.94
	(7.49)	(113.43)	10.08	(110.83)

Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, unused tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and unused tax credits could be utilised.

Note 17. TRADE PAYABLES

(i) Disclosures under the Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act')

	Rupees in million
a) Outstanding to suppliers as at the end of the accounting year.	
- Principal amount	14.71
- Interest amount	6.31
b) The interest paid during the year in terms of Section 16 of the MSMED Act and the payment made to the suppliers beyond the appointed day during the accounting year.	-
c) The amount due and payable as interest for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act.	-
d) The amount of interest accrued and remaining unpaid as at the end of the accounting year.	6.31
e) The amount of interest remaining due and payable till date in the succeeding year for the purpose of disallowances as a deductible expenditure under Section 23 of the MSMED Act.	6.31

37. Business Combination

'(a) During the year, the 'Speciality Product Business' of the Group was demerged, and transferred to DDP Speciality India Private Limited (fellow subsidiary) with effect from 1st April, 2018 (appointed date), pursuant to the scheme of arrangement ("the scheme") under sections 230 to 232 of the Act 2013 which was approved by the NCLT on 27th September, 2018. The scheme became effective on 1st November, 2018 upon completion of the formalities required under the Act.

The difference between book values of assets and liabilities of the demerged business amounting to Rs 736.07 million was debited to retained earnings as prescribed under the Scheme.

(b) In FY 2015-16, Rohm and Hass India Private Limited, ("ROH or Transferor Company"), engaged in the business of manufacturing, trading and marketing of 'Speciality materials', was amalgamated with the Company ("Transferee Company") pursuant to a Scheme of Amalgamation (the Scheme) approved by the Hon'ble High Court of Bombay on 22nd January, 2016. The appointed date of the Scheme was 1st April, 2015 and the Scheme became effective on 27th February, 2016, being the date on which all the requirements under the Companies Act, 1956 / 2013 were completed. Consequently, the entire undertaking and the business, including all assets and liabilities of the Transferor Company were transferred to and vested in the Transferee Company from the aforesaid appointed date. The amalgamation was accounted by recording all assets and liabilities of the transferee company at their respective fair values as per the order of Honorable High Court, resulting into recognition of goodwill.

39 The Company acquired CHPM Trading (India) Private Limited as subsidiary on 11th February, 2019. The Company was not required to prepare Consolidated Financial Statements for the previous year ending 31st March, 2018 and hence no comparatives have been given in the consolidated financial statements.

19-Jun-20	270	Deferred to be vested	19-Jun-20	19-Jun-20
1-Sep-20	10,103	Deferred to be vested	1-Sep-20	1-Sep-20
15-Feb-21	16,190	Deferred to be vested	15-Feb-21	15-Feb-21

The details of stock option granted to employees of the Group are as under:

	Year ended 31st March 2019
Group of Options / RSU	Number
Outstanding at the beginning of the year	136,562
Granted during the year	0
Forfeited during the year	(1,537)
Exercised during the year	(34,734)
Transferred (net)	(3,572)
Outstanding at the end of the year	96,719
Exercisable at the end of the year	46,067

B.The recharge from related party on account of the aforesaid schemes aggregate to Rs. 234.83 million (2018 ; Rs. 121.80 million). Further Group has also recognised deemed capital contribution of Rs.193.08 million in accordance with Ind-AS 102. Since the options/units are issued by DowDupont Incorporated, USA, the ultimate holding company, basic and diluted earnings per share would remain unchanged.

33.Retirement benefit plans

I Defined contribution plans

Eligible employees of the Group are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Group make monthly contributions at a specified percentage of the covered employees' salary. The Group also has a superannuation plan.

The total expense recognised in Statement of profit and loss of Rs. 125.11 million represents contribution payable to these plans by the Group at rates specified in the rules of the plan.

II Defined benefit plans

The Group has a defined benefit gratuity plan (funded) in India. The Group's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of investment strategy.

Under gratuity plan, employee is entitled to the benefit equivalent to fifteen days salary last drawn for each completed year of service depending on the date of joining, provided employee works for the organisation for 5 or more years. The plan provides for a lump-sum payment to vested employees on termination of service, retirement or death whichever is earlier. The Group accounts for the liability for gratuity benefits payable in the future based on an actuarial valuation. The Group makes annual contributions to a funded gratuity scheme administered by the Life Insurance Corporation of India. Group's liability towards gratuity (funded) is actuarially determined at each reporting date using the projected unit credit method.

These plans typically expose the Group to actuarial risks such as: Investment risk, Interest rate risk, Asset Liability Matching risk, Mortality risk, Concentration risk and Salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian Rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.
Interest rate risk	A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.
Asset Liability Matching risk	Plan faces the ALM risk as to the matching cash flow. Since the plan is invested in line of rule 101 Income tax rules 1962 this generally reduces ALM risk.
Mortality risk	Since the benefits under the plan are not payable for life time and payable till retirement age only, plan does not have any mortality risk.
Concentration risk	Plan is having concentration risk as all the assets are invested with the insurance company and the default will wipe out all the assets. Although the probability of this is very less as insurance company have to follow regulatory guidelines.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

During the year, there were no plan amendments, curtailments and settlements.

A separate trust fund is created to manage the Gratuity plan and contribution towards the trust fund is done as guided by rule 103 of Income tax rule 1962.

III The principal assumptions used for the purposes of the actuarial valuations were as follows:

	As at 31st March, 2019
Gratuity	
Discount rate	7.59%
Expected rate of salary increase	8.50%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

IV Amounts recognised in statement of profit and loss in respect of this defined benefit plan is as follows:

Year ended 31st March 2019

	Rupees in million
Gratuity	
Current service cost	34.14
Net interest expense / (income)	10.47
Components of defined benefit costs recognised in profit or loss	44.61

Remeasurement on the net defined benefit liability comprising:

Actuarial (gains)/losses arising from changes in demographic assumptions	-
Actuarial (gain)/loss arising from changes in financial assumptions	41.51
Actuarial (gain)/loss arising from experience adjustments	(11.71)
Actuarial (gain)/loss on plan assets	(0.95)
Components of defined benefit costs recognised in other comprehensive income	28.85
Grand Total	73.46

The current service cost and the net interest expense for the year are included in "contribution to gratuity funds" under employee benefits expense in profit or loss (Refer note 25)

VThe amount included in the balance sheet arising from the Group's obligation in respect of its defined benefit plan is as follows:

	As at 31st March, 2019 Rupees in million
Gratuity	
Present value of defined benefit obligation	389.17
Fair value of plan assets	272.89
Net liability arising from defined benefit obligation (funded)	116.28

Gratuity is reflected in "Provision for employee benefits" under provisions. [Refer notes 15]

VIMovements in the present value of the defined benefit obligation in the current year were as follows:

	As at 31st March, 2019 Rupees in million
Gratuity	
Opening defined benefit obligation	336.16
Current Service Cost	34.14
Interest Cost	25.92
Actuarial gains/ (loss) - Demographic	-
Actuarial gains/ (loss) - Financial	41.50
Actuarial gains/ (loss) - Experience	(11.71)
Benefits paid	(18.71)
Net transfer in / (out) (including the effect of any business combinations / divestures)	(18.12)
Closing defined benefit obligation	389.18

VII.Movements in the fair value of the plan assets in the current year were as follows:

	As at 31st March, 2019 Rupees in million
Gratuity	
Fair Value of plan assets at beginning of the year	236.50
Expected return on plan assets	15.45
Actuarial gains/ (loss)	0.95
Employer contribution	38.71
Benefits paid (including payments from trust)	(18.71)
Acquisition/Business Combination/Divestures	-
Closing fair value of plan assets	272.90

The Group funds the cost of the gratuity expected to be earned on a yearly basis to Life Insurance Corporation of India, which manages the plan assets.

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase.

VIII. The sensitivity analysis below has been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period.

	As at 31st March, 2019 Rupees in million
If the discount rate is 100 basis points higher/lower, the defined benefit obligation would:	
discount rate is - 100 basis points	30.18
discount rate is + 100 basis points	(26.49)
If the expected salary increases/decreases by 100 basis points, the defined benefit obligation would:	
Salary rate is - 100 basis points	(26)
Salary rate is + 100 basis points	30

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of each reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from previous year.

The Group expects to make a contribution of Nil to the defined benefit plans (gratuity - funded) during the next financial year.

The average duration of the benefit obligation (gratuity) as at 31st March, 2019 is 9 years.

IX. Experience adjustments (*)

	Rupees in million
	2018-19
Present value of obligation as at the end of the year	389.17
Fair value of plan assets as at the end of the year	272.91
Surplus/ (Deficit)	(116.26)
Experience Adjustments on Plan Liabilities	(11.71)
Experience Adjustments on Plan Assets	0.95

X. Composition of fund balance

Description	Percentage 31st March, 2019
Insurance Fund	100.00
Total	100.00

XI. Maturity Analysis of the benefit payments : From the Fund

Projected Benefits payable in the future years from the date of reporting	31st March, 2019
1st following year	34.84
2nd following year	33.34
3rd following year	37.31
4th following year	34.23
5th following year	30.33
Sum of years 6 to 10	170.45
Sum of years 11 and above	438.98

Textual information (14)

Subclassification and notes on income and expense explanatory [Text Block]

22.REVENUE FROM OPERATIONS*

* The amounts receivable from customers become due upon expiry of credit period which on an average ranges from 30 to 90 days. There is no significant financing component in any transaction with the customers.

In case of sale of goods, the Group satisfies its performance obligation upon shipment or delivery based on the terms agreed with the customer, and for sale of services, the performance obligation is satisfied as and when the services are rendered.

The Group does not have any remaining performance obligation as contracts entered for sale of goods are for a shorter duration. There are no contracts for sale of services wherein, performance obligation is unsatisfied to which transaction price has been allocated.

The Group disaggregated revenues from contracts with customers by nature of activity (businesswise) and by geography. The Group believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of its revenues and cash flows are affected by industry, market and other economic factors. For business-wise and geography-wise breakup of revenue, Refer Note 36.

B.Secondary segment information (by Geographic Segments)

Year ended 31st March, 2019	Within India	Outside India	Total
Revenue from operations	38,327.61	7,759.52	46,087.12
Segment assets (Based on location of assets)	25,580.11	5,701.33	31,281.44
Capital Expenditure	698.48		698.48

Notes

The Group's operating segment are established on the basis of the components that are evaluated regularly by the Chief Financial Officer and Chief Executive Officer (the "Chief Operating Decision Maker" as defined in Ind AS 108 – 'Operating Segments'), in deciding how to allocate resources and assessing performance. These have been identified taking into account nature of goods and services, the management structure, the internal financial reporting and the differential risks and returns of products in each segment. Business segment have been considered as the primary segment.

The Group has the following principal segments :-

- Manufacturing/ Trading - Manufacturing of Polyurethane Systems and trading in Polyurethane Systems including Crosslinkers.
- Indenting : Commission Income
- India Engineering Center : Simulations, Testing, and Designing unit,
- Support Services: Back-office support and services.
- Research & Development Center : Research and Development services.B77

The accounting policies adopted for segment reporting are in line with the accounting policy of the Group with the following additional policies for segment reporting.

- a) Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable"
- b) Segment Assets and Segment Liabilities represent Assets and Liabilities as respective segments. Tax related assets other assets and liabilities that cannot be allocated to a segment on a reasonable basis have been disclosed as "Unallocable".

'30Contingent liabilities and Commitments

	As at 31st March, 2019
Contingent liabilities and Commitments	Rupees in million
Tax demands disputed in appeals:	
VAT, Sales Tax and Cess - These relate to non-submission of 'C'/F' forms at the time of initial assessment and disallowance of input credit	450.26
Service tax - disallowance of CENVAT credit on certain services, rejection of refund claim and disallowance of ISD transfer to manufacturing unit for financial year 2007 to 2015	1,118.08
Income tax:	
Mainly pertains to transfer pricing adjustments in respect of AY 2010-11, AY 2011-12, 2012-13 and 2014-15 for recharges by overseas related parties for services rendered to the Group aggregating Rs. 3,844.34 million (2018: Rs. 3,591.83 million) [tax demanded Rs. 1,833.90 million (2018: Rs. 1,699.16 million)]. The Group has made a provision of Rs. 752.83 million [including interest upto 31st March 2019 (2018: Rs. 696.95 million - including interest upto 31st March 2018)] for certain services based on its assessment of availability of documents, details etc. In respect of recharges for similar services received by the Group for assessment years subsequent to the above, the Group is confident of providing adequate documentation to substantiate the recharges and accordingly doesn't expect any liability to arise in respect to support the recharges.	706.95
Customs duty- Refund receivable of Special Additional Duty (SAD)	108.29
Excise duty - Pertains to deemed manufacturing	121.57

Future cash outflows in respect of (a) to (e) above are determinable only on receipt of judgements/decisions pending with various forums/authorities. The Group is confident of successfully contesting any such demands in appeals and does not expect the liability to crystallise.

31.Capital Commitments

Capital Commitments (net of advances) not provided for

The outflow in respect of the above is not practicable to ascertain in view of the uncertainties involved.
